

Centenar Dan Giusca - Programele manifestarilor stiintifice

Data: Thursday 27 May @ 10:54:44 | 

La Academia Romana - Joi, 10 iunie, ora 10, in amfiteatrul Heliade Radulescu, Calea Victoriei 125

si la

Facultatea de Geologie si Geofizica, Vineri si Sambata, 11-12 iunie, ora 9.30 in amfiteatrul L.Mrazec din Bd.N.Balcescu 1, parter

La Academia Romana, Sesiune omagiala:

Acad. Dan Radulescu - Dan Giusca - 100 de ani de la nastere

Prof.dr. Nicolae Anastasiu, Membru corespondent al Academiei Romane - Acad. Dan Giusca - asa cum l-am cunoscut

Acad. Radu Dimitrescu, prof. Mircea Florea - Stefan Ghika-Budesti - petrograf si geotehnician

La Facultatea de Geologie si Geofizica - Catedra de Mineralogie si Societatea Geologica a Romaniei:

Vineri, 11 iunie 2004 – Amfiteatrul Ludovic Mrazec

9:30 – 11:30 In memoriam Dan GIUSCA – 100 de ani de la nastere

Nicolae ANASTASIU – Cuvant de deschidere – In memoriam

Gheorghe UDUBASA – Profesorul Dan Giusca – un remarcabil mineralog

Tudor BERZA – Contributiile profesorului Dan Giusca la studiul banatitelor

Ioan PETREUS, Ioan MARZA – Despre Academicianul Dan Giusca

Emil CONSTANTINESCU – Nicolae ANASTASIU - Masivul Ditrau - provocarea Acad. D.Giusca – o alta retrospectiva

Dna Constanta GIUSCA si Memorialul Acad. Dan Giusca – Acordarea Premiului Acad. Dan Giusca

11:30- 12:00 pauza

Sectiunea A - Petrologie magmatica

Moderatori: Acad. Dan Radulescu, Dr. Tudor Berza, Dr. Anca Dobrescu

12:00-12:20 Haralambie Savu – The Transylvanian mantle plume and the related hotspot volcanic rocks, Romania

12:20-12:40 Anca Dobrescu – Buchin and Slatina-Timis granitoids revisited – geochemical and isotopic premises, genetic and chronological perspectives

12:40-13:00 Peter Luffi – On the possible crustal origin of some Cenozoic postcollisional ultrapotassic magmatic rocks from Tibet to southeastern Pamir

13:00-13:20 Ioan Seghedi, Zoltan Pecskey, Alex. Szakacs – K-Ar dating of the Miocene calc-alkaline intrusion events in Rodna-Bargau area (East Carpathians, Romania)

13:20-13:40 Alexandrina Fulop, Marinel Kovacs – Volcaniclastics related to the calc-alkaline intermediate volcanism from Oas Gutai Mts. (Eastern Carpathians); an overview

13:40-14:00 Marinel Kovacs, Alexandrina Fulop – Adularization in Baia Mare metallogenic district (Gutai Mts., Romania); a new approach

Pauza 14:00 – 15:30

Sectiunea B – Petrologie metamorfica

Moderatori: Acad. Radu Dimitrescu, Prof. Marin Seclaman, Dr. Antoneta Seghedi

15:30-15:50 Antoneta Seghedi, Frank. S.Spear, Lara Storm – The metamorphic evolution of the Hercynian basement of north Dobrogea: constrains from petrological studies and monazite dating

15:50-16:10 Mircea Muresan – Synmetamorphic evolution of gabbroid and doleritic rocks of the epimetamorphic Tulghes group – lower Ordovician (East Carpathians)

16:10-16:30 Viorica Iancu – Sebes-Lotru series (suite): updating the monenclature according with recent geological information and recommended terminology

16:30-16:50 Ioan Robu, Lucia Robu – Migmatic rocks of the South Carpathians

16:50-17:10 17:10-17:30 Alex. Barbulescu, Gelu Costin – Mineralogia si termobarometria eclogitelor si sisturilor cu fengit si granat din ocurenta Leresti – Raul Targului (Mtii. Iezer)

17:30-17:50 Marin Seclaman, Peter Luffi, Anca Luca – Sapphirine-corundum relationships in retrogressed eclogites from the Porțile de Fier Unit

17:50-18:10 Marcel Maruntiu, Mihai Tatu, Rene-Pierre Menot – Petrology of the marble-encapsulated eclogites from Apuseni Mountains

18:10-18:30 Dragos Popescu, Alex. Barbulescu, Gelu Costin – Date noi privins skarnele de reactie din Valea lui Stan (Grupul Cumpana, Muntii Fagaras)

Sambata 12 iunie - Amfiteatrul Ludovic Mrazec

Sectiunea C – Mineralogie

Moderatori: Dr. Gh. Udubasa - m.c. Acad. Rom., Prof. Ioan Petreus, Dr. Gh. Ilinca

9:00-9:20 Gh. Udubasa, Marian Lupulescu, Sorin Udubasa – Nagyagite – A State of Art 2004

9:20-9:40 Ioana Stanciu, Alex. Vizitiu, Gh. Ilinca – Cristalochimia Mn-ilvaitului de la Dognecea

9:40-10:00 Viorica Milu – Aluminium-phosphate-sulfate minerals in a magmatic-hydrothermal system, Apuseni Mountains, Romania

10:00-10:20 Elena Dobrica, Luisa Iatan, Bogdan Grigoras – Date mineralogice si paragenetice noi privind meteoritii chondritici colectati din vestul Saharei Algeriene

Pauza 10:20 – 10:50

Sectiunea D – Geologie ambientala si geologie economica

Moderatori: Prof. Ioan Marza, Prof. Lucian Matei, Geol. Dorin Dordea

10:50-11:10 Lucian Stanciu – Updating “The Geological Bibliography of Romania” – a present necessity

11:10-11:30 Relu-Dumitru Roban – Analiza petrografica a depozitelor paleogene din nord-estul

Depresiunii Getice - petrotipuri, reconstituiri de arii sursa si evolutia spatiului interstitial

11:30-11:50 Jenica Stancescu – Analiza sedimentologica in gresia de Kliwa din zona Valenii de Munte

11:50-12:10 Florin Stoican – From dream to reality: The Buila – Vanturarita National Park

12:10-12:30 Laczko Attila-Albert, Lucretia Ghergari, Judith Gal – The impact of the supergene alteration processes in the pollution of the mining area from Santimbru-Bai (Southern Harghita Mts)

12:30-12:50 Sorin Tamas-Badescu, Gabriela Tamas-Badescu – Simplified economic filters for porphyry copper deposits

12:50-13:10 Anca Luca – Limitele metodei traverselor liniare utilizata pentru determinarea sistemului de

pori din betoane

Sesiune poster

Paulina Hirtopanu, G. Barbir Uranium mineralization in the Tulghes Group, Bistrita Mts, East Carpathians
